Next, check our website (www.mgt.tum.de) or do a Google search to find out which Chair this person belongs to. Then consult the **website or Office Management of the Chair** to find out who you should submit your application to. Please **do not** submit your application directly to the Professor or lecturer unless you are explicitly told that they are the person responsible.

Recognition of TUM courses, which were attended **before** starting and **during** your Master's at TUM School of Management

Please note: As a rule, the approved recognition will be sent to us by the chair via internal post. Insofar as all requirements concerning examination and matriculation law are met, we will enter the recognition in TUMonline. Please understand that this may take some time. Thank you for your understanding and patience!
